Subject:	**Changes to 2027 NHPP and Sport Canada AAP Programs**

In 2024 Tennis Canada conducted a comprehensive evaluation of the Sport Canada Athlete Assistance Program (AAP) carding criteria and National High Performance Program eligibility requirements. Both programs need to remain relevant and equitable as the sport evolves and continue to meet the stated program ranking and results objectives. Input was gathered from the High-Performance Committee, Player representative, and Sport Canada throughout the process.

As a result, there will be adjustments to the ITF ranking performance indicator progressions in both programs beginning in 2027. These changes are being communicated well in advance to ensure you have ample time to review and adjust your training or competitive plans accordingly.

The key ITF ranking performance indicator progression changes are outlined in the accompanying documents. We will organize virtual sessions next month to provide the update verbally and answer any questions that may arise.

Thank you.
