

**The University Championships competition is very exciting, and part of that excitement is the crowd's support for their team and players.**

**However, noise during the service motion, between first and second serve and during a rally can be very disturbing to the players.**

**In University Championships competition there is a "Partisan Crowd Rule" by which crowd disturbances that affect play (particularly during the serve) can result in your team being penalized.**

**Enjoy the matches and cheer for your favorites, but please do not create disturbances during play.**

**Your help will be greatly appreciated.**
